About EverLively

EverLively Home Healthcare is a sister company of Goodwill Staffing & Recruitment which has provided over 50,000 hours of care to nursing homes, hospitals and schools across Ontario, B.C, Manitoba and Saskatchewan. EverLively offers affordable solutions for the elderly throughout the community who prefer to stay at home where their quality of life is enhanced.

We provide services that help to preserve an independent and dignified lifestyle for the elderly while in the comfort of their own homes.

Canadian Home Care Association MEMBER

Vision:
To be the provider of choice for homecare services

Mission:
Provide qualified professionals to meet your care needs

Core Values:
Excellence, Continuous improvement and Reliability

EverLively
Home Healthcare

Our company alleviates the concerns we all have for our loved ones who are unable to perform what used to be their everyday chores, such as making dinner, getting dressed, and going to the grocery store so they do not have to abandon the familiarity of their home or the companionship of their neighbors, friends, and family.

Our Resources

- Registered Nurses
- Registered Practical Nurses
- Personal Support Workers

What inspires us?

Smiles are true testimonials!

For us, putting a smile on the faces of our clients as we make their life a little easier makes us feel truly fulfilled. We realize that choosing the right senior care company for your loved one can be a difficult and time consuming task. Our guarantee to you is that when you choose us, you choose a company that has the well-being of your loved one as a priority. With our registered nurses providing active case management and working in collaboration with other healthcare professionals in the team, you can be rest assured that nothing will fall through.

Experienced staff

We provide you with experienced personal support workers or health care aides, licensed/registered practical nurses and registered nurses.

Quality care

We match our client with our workers who best suit their care needs.

Let us provide you with high quality care! Live with peace of mind with our compassionate home health care services.

Experience EverLively Home Care

We offer non-medical services under this level: companionship, light house cleaning, laundry, kitchen maintenance, attendant/driver service, home basics, basic personal care and pet care.

Companionship

The three plagues that account for the bulk of suffering among the elderly is loneliness, helplessness and boredom, according to the Eden philosophy of care. Our caregivers take interest in the client, their life and their environment in order to alleviate these plagues.

Laundry

The caregiver will wash, dry, iron and fold laundry for the client.

Kitchen maintenance

The caregiver may not wear a chef's hat but they do know their way around a kitchen. Grocery planning, grocery shopping, dishwashing, food maintenance and cooking are the duties of the caregiver. Meals will be planned in conjunction with a nutritionist and with the client.

Attendant/Driver service

If mobility is a concern, the caregiver can attend any function, appointment or errand with the client. The caregiver keeps the client's schedule so that important appointments aren't forgotten. Depending on arrangements, travel could be by taxi or by the caregiver's vehicle.

Basic personal care:

The caregiver will help with washing, pre-poured medicine, personal hygiene, nail care, hairdressing, picking out co-ordinated outfits, dressing up, or applying makeup.

Home basics

This covers all the basics of looking after a home such as garbage control, health and utilities checks, replacing light bulbs and everything else that may have at one time been addressed by the client.

Pet care

The caregiver will ensure the pet is always as happy as the client. Cleaning, feeding, and exercising the pet will be part of the day's activities.

Experience EverLively Health Care

Health care is usually a progression from home care. Depending on the client and the arrangements made in accordance with the assessment, EverLively has personal support workers or health care aides, licensed/ registered practical nurses and registered nurses who can provide the following medical services:

Alzheimer's nurturing

The number of men and women experiencing mild to extensive degrees of Alzheimer's is increasing and is expected to reach epidemic proportions. As Alzheimer's progresses, it becomes increasingly important to keep the patient in familiar surroundings. This puts a tremendous strain on the family both mentally and physically. Our company understands this and works closely with the patient and family members to ensure comfort for all involved. Health workers specializing in the unique issues of Alzheimer's will be assigned to enrich the patient's daily living.

Caring for the aged

Our company realizes the complications associated with improper foot care. Whether it's a result of diabetes, vascular disease, or neglect, the foot requires careful attention for continued comfort, mobility, and infection control. Services included are nail cutting, corn and callus control, infection cleansing, and appliance or pad application.

Medication management

Administering drugs by a qualified nurse is essential in maintaining the health of a patient on medication. From diabetes and high blood pressure to disease management and pain management, drugs require the right measurement, the right frequency and the right administration. Our health workers adhere to strict standards set forth to ensure the wellbeing and comfort of the patient.

Wound care

Our health workers work in conjunction with the case physician to ensure that wounds are cared for to facilitate healing.

Palliative care/Respite care

One of the most sensitive areas in health management is caring for a friend or loved one whose prognosis is grim. A comfortable family home allows the loved one to spend their precious time in surroundings full of love and memories. Our company can help with the arrangements to make this possible, whether as respite care to allow loved ones to take a break, or as a round the clock loving care.

Basic personal care

Bathing, washing and other personal hygiene can be provided to ensure that cleanliness and dignity are maintained.

Steps of Care

Step 1

Call for a free assessment by a Registered Nurse

Step 2

The nurse will schedule a visit for an on-site assessment to evaluate client needs, resources for this care, goals of this care, family and environment.

Step 3

The nurse will create a customized care plan based on their assessment and coordinate care with other members of the EverLively team.

EverLively
Home Healthcare

EverLively will work with you to create your care plan listing:

- *What services you need*
- *Which health care professionals should give these services*
- *How often you'll need the services*
- *What results your doctor expects from your treatment*

We will give you or arrange for all the services listed in your plan of care in collaboration with your doctor, and we will review your plan of care as often as necessary, but at least once every 60 days.

If your health problems change, we will notify your doctor right away. We will also tell you about any changes in your plan of care and only change it with your doctor's approval. If you have a question about your care, or if you feel your needs aren't being met, talk with both your doctor and the nurse in charge of your care at EverLively.
